- 13 Pc. SAE Set (9509N) 5/16", 11/32", 3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4", 13/16", 7/8", 1", 15/16"

WERA 11 PIECE JOKER SET COMBINATION WRENCH POUCH SET (METRIC)

020013

High quality combination ratchet wrench set by Wera: everything that a wrench has to be able to do. And a whole lot more. Faster, better, stylish. Yes, a real Joker. The new generation of combination ratchet wrenches. 11-piece set in a robust pouch. Suitable for hexagon bolt heads or nuts. Comes with a holding function, thanks to the metal plate

in the jaw, which reduces the risk of dropping nuts and bolts. The replaceable metal plate in the jaw secures nuts and bolts with its extra hard teeth and limits the danger of slipping. The integrated limit stop prevents any slipping down around the bolt head and allows higher torque to be applied. The double-hex geometry makes for a positive connection with nuts or bolts and reduces the risk of slipping.

150MM /6" ADJUSTABLE WRENCH

AC26VS

Also available in:

- 100mm / 4" (AC24VS)
- 200mm / 8" (AC28VS)
- 250mm / 10" (AC210VS)
- 300mm / 12" (AC212VS)
- 380mm / 15" (AC215VS)
- 450mm / 18" (AC218VS)

CRESCENT

WERA 6004 JOKER 4 PCE SELF-SETTING SPANNER SET (XS, S, M, L)

020110

Many users wish to have a universal screwdriving tool with the widest possible range of applications. It should be a single tool for multiple metric and imperial dimensions. It should automatically adjust to the different screw sizes. It should be safe to grab without damaging anything and should allow for high working speeds. With its continuous and parallel jaws the Joker 6004 replaces several single spanner sizes.

Wera

SHIFTER CHROME

- Rust-resistant
- Etched jaw opening markings
- Adjusts smoothly, doesn't loosen easily

Code	Description
