

# SCREWS AND AUTO-FEED SCREW SYSTEMS

## VORTEX™ CYCLONE

### UNIVERSAL CYCLONE ASSEMBLY FOR STEEL & TIMBER

**2X PROTECTION**

More than double the Corrosion protection of conventional Class 4 in category 5 environments.

**8X TOUGHER**

Than conventional Class 4 Extremely abrasion resistant. Minimal coating loss during installation.

**30% FASTER DRILLING**

Than conventional Class 4

The Bremick Vortex™ Cyclone is a preassembled Universal Cyclone Assembly complete with a marine grade Aluminium/ EPDM “BRA” Cyclone washer, suitable for use with all corrugated and square rib roofing profiles which is mounted on the Vortex™ self drilling screw, designed for universal application into Timber, Metal Battens and Steel purlins up to 2mm thick.\* Available in 25mm, 55mm, 65mm and 95mm.

Available in galvanised and B8 finishes.

#### Heavy Duty BRA Washer

- Marine Grade Aluminium
- EPDM Extruded Seal
- Non conductive
- 4 Sealing points

#### TopGrip™

- Maintains sealing pressure
- Vortex™ Thread

- For optimum performance in timber and steel.

#### Universal Drill Point

- Timber, metal battens, Steel purlins

#### Tested & Certified to:

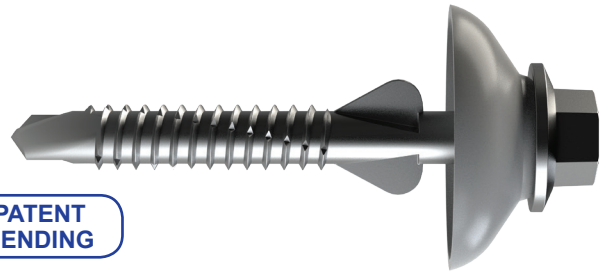

- BCA – Spec B 1.2 • AS 4040 • AS 1562.1
- NT Deemed To Comply

Product	Features	QTY	Pack	Code

## VORTEX™ POLY

### POLYCARBONATE ASSEMBLY FOR TIMBER

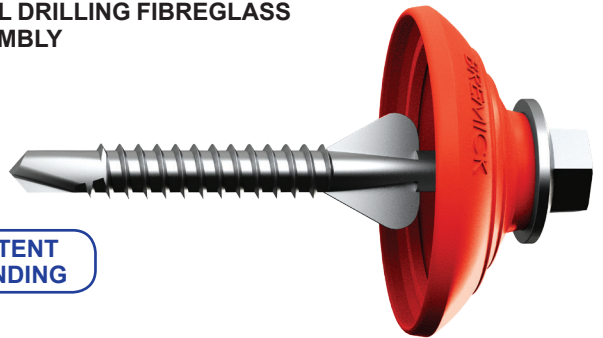

PATENT PENDING

One Step fastening of corrugated and square rib sheeting. Ideal for profile rib heights 16mm to 29mm. Cutting fins automatically form expansion hole and self centre screw during installation. Vortex™ universal screw for timber or steel up to 1.5mm thick. Armour Coat™ protection to AS 3566 Class 4. 26mm diameter EPDM sealing washer for water tight seal. Available in 50mm and 65mm length.

## VORTEX™ FIBREGLASS

### METAL DRILLING FIBREGLASS ASSEMBLY

PATENT PENDING

One Step fastening of corrugated and square rib sheeting. Suitable for profile rib heights 16mm to 35mm into steel purlins up to 2.4mm. Cutting fins automatically form expansion hole and self centre screw. Armour Coat™ protection. Weather seal sealing washer for water tight and secure fastening. Hi Visibility seal highlights non trafficable sky light zones. Available in 65mm length.

## VORTEX™ ROOF

### UNIVERSAL ROOFING SCREW FOR STEEL & TIMBER

PATENTED

Increases drill drive speed. Provides faster installation by reducing torque. Eight times harder than conventional Class 4 coatings. Fully compatible with COLORBOND® Ultra Steel, ZINCALUME®, COLORBOND® and Galvanized and Zinc coated products. Suitable for use in ACQ and CCQ treated timber. Available in 50mm and 65mm length.

Available in galvanised and B8 finishes.

- Steel / Timber

### BI-FIX™ HEX HEAD WITH ALUMINIUM SEAL T4XMXAH

- Bi-Metal
- SS 304

## TORNADO SCREWS

A registered dual fine and coarse thread screw. Fine thread for metal batten fixing & coarse thread for timber fixing. This screw has shank protection and excellent holding power. Available in class 4 galvanised head or Colorbond\* painted head. \*Colorbond is a registered trademark of BlueScope Steel Ltd.

## MULTIPURPOSE SELF DRILLING SCREW

The Macsim Self Drilling Screws are designed to drill through mild and structural steel. No pre-drilling required. Available in a range of head types and finishes.

HEAD	FINISH	LENGTH
