FS 964 CERAMIC FIBRE DISC

- Premium product with excellent performance for working on steel
- Micro-crystalline self sharpening effect
- Advanced coating technology (ACT) for extraordinary grain adhesion and extended service life

Product Code	Size (mm)	Grit Size
330484	125 x 22	24
330485	125 x 22	36
330487	125 x 22	60
330490	125 x 22	80
330491	125 x 22	120

CS 565 ZIRCONIA FIBRE DISC

- Self sharpening effect
- High aggressiveness on steel and stainless steel
- Ideal for rough grinding work
- Excellent price performance ratio

Product Code	Size (mm)	Grit Size
100711	100 x 16	24
23680	100 x 16	36
84604	100 x 16	60
188678	100 x 16	80
95335	115 x 22	24
6686	115 x 22	36
242801	115 x 22	40
6687	115 x 22	60
6688	115 x 22	80
97643	125 x 22	24
6620	125 x 22	36
93054	125 x 22	50
6721	125 x 22	60
23005	125 x 22	80

NORZON FIBRE DISCS - SLOTTED - F827

NORZON™ Zirconia Fibre discs are heavy-duty abrasive discs with resin over resin construction on a heavy-duty vulcanized fibre backing.

They are designed for applications from heavy stock removal to surface blending and finishing.

- Available in other sizes

DRY WALL SANDING DISCS

Designed to provide faster, easier and cleaner sanding for a perfect finish. These discs are suited to all portable and long-reach sanding machines. The high-loft backing cushions the disc for smoother uniform sanding, reducing swirl marks, while the full surface multi-hole design maximises dust extraction without the need to align holes.

RUBBER BACKING PAD COMBIDISC CDR

Article No.: 47600070

- Sizes: 50mm
- Max. RPM: 19,000
- 1 product per display, 4 displays in 1 box
- Suits PFERD CDR COMBIDISCS
- Vibration free operation
- Also available in size 75mm

ALUMINIUM OXIDE DISCS COMBIDISC CDR

- Quick change discs save time & money
- Long life for hard to grind materials including stainless steel
- Suitable for general purpose use on metals & other materials
- Discs also available in size 75mm
- Bulk pack also available
